Digital Cinema DDR DLP™ Projector

Optoma's home theater projectors represent quality engineering and a new life style. They are designed and fine-tuned specifically for use in your home theater. The projector is formatted for wide screen HDTV and reveals deep, rich colors, defining images in vivid details for the ultimate home theater experience. Projecting large images that liberate your senses, Optoma's Home Theater projector defy the conventional constraints of projection viewing, illuminating impressive blacks and color reproduction. Balancing sleek aesthetic form with home theater function, Optoma brings it home, a new life style.

Advanced DDR DLP™ (Digital Light Processing) Technology

- ◆ Fully HDTV compatible with 480i/p, 720p, 1080i
- ◆ Excellent contrast ratio of 2000:1 gives you precise, vivid colors and unyielding blacks with exact color reproduction and immense depth of field.
- ◆ Optoma's adjustable color matrix regulates reds, greens and blues independent of one another.
- ◆ Near-silent 32 dB enables you to quietly watch your favorite movies without interfering with the sound quality you would expect from home theater.
